RE: MSNBC Daily Hire Pay Issues

Over the last month, NABET-CWA Local 11 has been working closely with NBC Labor Relations to correct a number of pay issues concerning our MSNBC Daily Hire Brothers and Sisters.

Although there have been improvements in the system and STORM training is now being scheduled it is very important that you keep detailed records concerning your days and hours worked.

After reporting pay discrepancies to your management supervisor, please contact the Union office by email with as much information as possible on any unresolved issues. We will make the Company aware of your individual problems and continue to monitor the situation until all outstanding payroll issues are resolved.

Fraternally,

Edward J. McEwan
President
