NABET-CWA/NBC NEGOTIATIONS Washington, DC

**BULLETIN #5
February 4, 2002**

Members of the NABET-CWA Negotiating Committee today held a telephone conference call to discuss future strategies it would put into motion in the event the current off-the-record, limited-issue bargaining talks with NBC are not successful. With this in mind, the Negotiators also decided to have the Union contact the Company to establish dates and locations for future fullscale negotiations.

The Negotiating Committee will hold another conference call on February 21 at Noon Eastern Standard Time to determine the Union's further courses of action.
